FAA Emergency Medical Kit

- Airbus cross fleet approval
- ETSO Approval under technical specification TS 40.400/2TS
- In compliance with FAR-121 Subpart X
- In compliance with ICAO, Part I

The Emergency Medical Kit PNR 6240-28 has been assembled strictly to the statutory requirements of FAR 121, Subpart X and ICAO, Part I including latest amendment. The emergency medical kit represents the minimum mandatory standard. The upper compartment is equipped with an ampoule rack which holds up to 33 ampoules. The lower compartment is divided into sections grouping the items by medical subject. The kit is manufactured of aluminum sheets (coated in grey) and aluminum sections.

Anticipated shelf life is 12 months, which may be reduced down to 9 months due to the availability of medicine production lots. Latches can be sealed by tie-wraps, plombs or lockers.

The bracket PNR 6240-01-001 allows installation of the kit at any location. The bracket has been tested in our approved testing facilities for use in all directions (9g).
